

Asian Chamber of Commerce William "Bill" Endow Scholarship Orientation

Bill Endow was a tireless humanitarian dedicated to education and community service. After his untimely death in 1998 at age 61, it was felt that something should be done, not only to honor him, but to encourage young Asian Americans to follow his example. To that end, a scholarship fund was created in his name to honor Asian American students who demonstrate:

1. A commitment to voluntary service in the greater Las Vegas community.
2. Leadership, citizenship, scholarship, service and character.
3. High academic achievement and a plan to pursue a college education.
4. Continuous work within the Asian community to promote ethnic and cultural identity.
5. Participation in athletics and/or extracurricular school activities.

Each year, the Bill Endow Scholarship Foundation awards scholarships to deserving Asian American high school seniors. Scholarship applicants and their parents must attend the orientation to further understand the requirements of the application. High school sophomores, juniors and their parents are also encouraged to attend the orientation to learn what to do to qualify for this prestigious scholarship. There are two sessions to accommodate those who have scheduling conflicts. **Please note the orientation is a mandatory prerequisite in order to apply for the Bill Endow Scholarship. This year we will have a special guest Nikki Modi from Washington DC she is Program Coordinator for Outreach Asian and Pacific Islander American Scholarship Fund Gates Millennium Scholars. ** If you cannot attend the orientation due to a school sponsored event or testing, you must have either a parent or counselor represent you at the orientation.**
